Software-Defined Data Center (SDDC)

Security Operations for the Software-Defined Data Center 🚀

In the course, we teach you how to use the VMware Software-Defined Data Center product portfolio and tools to better manage administrator access, harden your VMware vSphere® environment, and secure data at rest and in motion. We also discuss compliance and automation to help you ensure that your deployments align with your security policies.

VMware NSX

VMware NSX: Install, Configure, Manage [V6.4] 🚀

This five-day, comprehensive, fast-paced training course presents VMware NSX® as a part of the software-defined data center. You will learn how to use logical switching in NSX to virtualize your switching environment. The course also details logical routing to enable you to dynamically route between different virtual environments. You will also learn how to use gateway services, firewall configurations, and security services to help secure and optimize your NSX environment.

VMware NSX for Internetworking Experts Fast Track [V6.2]

This comprehensive, fast-paced training course focuses on installing, configuring, and managing VMware NSX®. This course addresses NSX as a part of the software-defined data center, implementation use cases and features of NSX, and functionality operating at layer 2 through layer 7 of the OSI model.

Data center network architectures are examined to demonstrate how NSX intersects with and virtualizes functions of a Cisco-based infrastructure in spine-leaf and traditional core-aggregate-access architectures. Lecture and hands-on lab activities support your understanding of NSX features, functionality, and ongoing management and control.

Maximize Value with Private VMware Training

Private training is the perfect option for organizations that need a cost-effective way to train a large number of employees all at once. The cost per student is lower than the cost of a public class, you can tailor the content to your specific needs, and class is scheduled around your schedule, not ours. We also work with you to meet your schedule and location requirements minimizing time away from work for your key staff.
