VMware Site Recovery Manager: Install, Configure, Manage [V6.1]	12
VMware vCloud Director: Install, Configure, Manage [V5.5]	12
Desktop and Application Virtualization Management	
VMware Horizon 7: Install, Configure, Manage [V7.0]	13
VMware Mirage: Install, Configure, Manage [V5.0]	13
NEW - VMware Horizon 7: Install, Configure, Manage plus App Volumes Fast Track [V7]	13
VMware Horizon (with View): Install, Configure, Manage [V6.2]	14
VMware Horizon 7: Troubleshooting and Performance Optimization [V7]	14
VMware Horizon: Design and Deploy [V6]	14
VMware Mirage [V5.0] and Horizon with View [V6.0]: Fast Track	15
VMware Application Virtualization with VMware ThinApp [V5.0]	15
VMware App Volumes: Application and User Profile Management [V2.X]	15
VMware AirWatch	
VMware AirWatch: Configure and Manage	16
VMware AirWatch: Bootcamp	16
VMware AirWatch: Configure and Deploy Integrated Solutions	16
VMware AirWatch: Install and Deploy On Premise Solutions	16
NEW - VMware AirWatch: Integrating with VMware Identity Manager	17
VMware AirWatch: K12 Education	17
VMware AirWatch: Enterprise Mobility Foundations	17
VMware AirWatch: Software Development Kit	17
VMware AirWatch: Rugged Device Management	18

Software-Defined Data Center (SDDC)

Security Operations for the Software-Defined Data Center

In the course, we teach you how to use the VMware Software-Defined Data Center product portfolio and tools to better manage administrator access, harden your VMware vSphere® environment, and secure data at rest and in motion. We also discuss compliance and automation to help you ensure that your deployments align with your security policies.

Delivery Types	Classroom, Live Online, Onsite
Role	Architect, Engineer, Administrator
Level	Advanced
Length	5 Days
SKU	EDU-SOSDDCI-OE
Credit Price	23

Data Center Automation with vRealize Orchestrator and vSphere PowerCLI

This course equips experienced VMware vSphere® administrators with the knowledge to use the automation tools that all vSphere customers have access to. Using real-world use cases and examples, students learn how to automate day-to-day administration tasks with VMware vSphere® PowerCLI™ and VMware vRealize® Orchestrator™. In this class, you use these tools to automate tasks in a lab environment.

Delivery Types	Classroom, Live Online, Onsite
Role	Administrator
Level	Advanced
Length	5 Days
SKU	EDU-DCAVROP-OE
Credit Price	23

Virtual Storage

VMware Virtual SAN: Deploy and Manage [V6.2]

During this three-day course, you will focus on deploying and managing a software-defined storage solution with VMware Virtual SAN™ 6.2. You will learn how Virtual SAN functions as an important component in the VMware software-defined data center (SDDC). You will gain practical experience with Virtual SAN concepts through the completion of hands-on lab exercises.

Delivery Types	Classroom, Live Online, Onsite
Role	Administrator, Engineer
Level	Professional
Length	3 Days
SKU	EDU-VSANDM62-OE
Credit Price	14

Also available as an [On Demand](#) self-paced course.

SKU	EDU-VSANDM62-EL
Credit Price	14

VMware Virtual SAN: Deploy and Manage [V6]

This training course focuses on preparing you to deploy and manage a software-defined storage solution with VMware® Virtual SAN™ 6. VMware Virtual SAN 6: Deploy and Manage looks at how Virtual SAN is used as an important component in the VMware Software-Defined Data Center (SDDC). Students gain practical experience with these concepts through the completion of hands-on labs. The course is based on the VMware® ESXi™ 6 , VMware® vCenter Server™ 6 and VMware Virtual SAN 6.

Delivery Types	Classroom, Live Online, Onsite
Role	Administrator, Engineer
Level	Professional
Length	3 Days
SKU	EDU-VSANDM6-OE
Credit Price	14

Also available as an [On Demand](#) self-paced course.

SKU	EDU-VSANDM6OD-EL
Credit Price	14

VMware NSX

VMware NSX: Install, Configure, Manage [V6.2]

This comprehensive, fast-paced training course focuses on installing, configuring and managing VMware NSX™. This course covers NSX as a part of the software-defined data center platform, implementation use cases along with features of NSX, and functionality operating at Layer 2 through Layer 7 of the OSI model. Lecture and hands-on lab activities support your understanding of NSX features, functionality, and on-going management and control.

Delivery Types	Classroom, Live Online, vFlex-ILT, Onsite
Role	Administrator, Engineer, Architect
Level	Professional
Length	5 Days
SKU	EDU-NSXICM62-OE
Credit Price	23
Related Certification	VMware Certified Professional 6 - Network Virtualization (VCP6-NV)

Also available as an [On Demand](#) self-paced course.

SKU	EDU-NSXICM62-EL
Credit Price	23

Extend the hands-on lab portion of this course with [Lab Connect](#).

SKU	EDU-NSXICM62-LC
Credit Price	5

VMware NSX for Internetworking Experts Fast Track [V6.2]

This comprehensive, fast-paced training course focuses on installing, configuring, and managing VMware NSX®. This course addresses NSX as a part of the software-defined data center, implementation use cases and features of NSX, and functionality operating at layer 2 through layer 7 of the OSI model.

Data center network architectures are examined to demonstrate how NSX intersects with and virtualizes functions of a Cisco-based infrastructure in spine-leaf and traditional core-aggregate-access architectures. Lecture and hands-on lab activities support your understanding of NSX features, functionality, and ongoing management and control.

Delivery Types	Classroom, Live Online, Onsite
Role	Administrator, Engineer, Architect
Level	Professional
Length	5 Days
SKU	EDU-NSXFT62-OE
Credit Price	35
Related Certification	VMware Certified Professional 6 - Network Virtualization (VCP6-NV)

vmware EDUCATION SERVICES

VMware Education Services Learning Specialists

Not sure which courses would be best for you or your team? Our Learning Specialists can help. Whether you would be best suited by an Onsite delivery, or a package of our On Demand courses, they can guide you to the best and most cost-effective solution.

vmware®

NEW - VMware NSX: Install, Configure, Manage plus Troubleshooting and Operations Fast Track [V6.2]

This intensive five-day, extended-hours course focuses on installing, configuring, and managing VMware NSX®. This course presents VMware NSX as a part of the software-defined data center. The course also details logical routing to enable you to dynamically route between different virtual environments.

You will learn how to use logical switching in VMware NSX to virtualize your switching environment and how to use gateway services, firewall configurations, and security services to help secure and optimize your VMware NSX environment. In addition, you will be presented with various types of technical problems which you will learn how to identify and solve through a systematic process. You will also be introduced to several operational, management, and troubleshooting too.

Delivery Types	Classroom, Live Online, Onsite
Role	Administrator, Engineer
Level	Advanced
Length	5 Days
SKU	EDU-NSXICMTSFT62-OE
Credit Price	35

VMware NSX: Troubleshooting and Operations [V6.2]

This five-day hands-on training course provides you with the advanced knowledge, skills, and tools to achieve competence in operating and troubleshooting the VMware NSX® 6.2 environment. In this course, you will be presented with various types of technical problems. You will learn how to identify the problems and solve them through a systematic process. You will also learn about several operational, management, and troubleshooting tools.

Delivery Types	Classroom, Live Online, Onsite
Role	System Administration, Network Administrator, Engineer
Level	Advanced
Length	5 Days
SKU	EDU-NSXTO62-OE
Credit Price	25
Related Certification	VMware Certified Advanced Professional 6 - Network Virtualization Deployment (VCAP6-NV Deploy)

VMware NSX: Design and Deploy [V6.2]

This 5-day course prepares you to lead VMware NSX® design and deployment projects by providing an understanding of general design processes and frameworks. You look at the design and deployment considerations for network virtualization as part of an overall software-defined data center design.

Delivery Types	Classroom, Live Online, vFlex-ILT, Onsite
Role	Architect, Administrator, Engineer
Level	Advanced, Expert
Length	5 Days
SKU	EDU-NSXDD62-OE
Credit Price	25
Related Certification	VMware Certified Design Expert – Network Virtualization (VCDX-NV)

VMware NSX for Internetworking Experts Fast Track [V6.1]

This comprehensive fast-paced training course focuses on how to leverage the power of the VMware NSX™ network virtualization and security platform. This course covers NSX as a part of the software-defined data center platform, implementation use cases along with features of NSX, and functionality operating at layer 2 through layer 7 of the OSI model.

Data center network architectures are examined to demonstrate how NSX intersects with and virtualizes functions of a Cisco-based infrastructure in spine-leaf and traditional core-aggregate-access architectures. Lecture and hands-on lab activities support the student's understanding of NSX features, functionality, and on-going management and control. This course is designed for students with Cisco certification or extensive experience working with Cisco products.

Delivery Types	Classroom, Live Online, Onsite
Role	Administrator, Engineer, Architect
Level	Professional
Length	5 Days
SKU	EDU-NSXFT61-OE
Credit Price	35
Related Certification	VMware Certified Professional 6 – Network Virtualization (VCP6-NV)

VMware vSphere [V6.5]

NEW - VMware vSphere: What's New [V5.5 to V6.5]

In this three-day, hands-on training course, you will explore the new features and enhancements in VMware vCenter Server® 6.5 and VMware ESXi™ 6.5. Real-world use case deployment scenarios, hands-on lab exercises, and lectures will teach you the skills that you need to effectively implement and configure VMware vSphere® 6.5. This class is recommended for customers who want to deploy vSphere 6.5 into their existing vSphere environment.

Delivery Types	Classroom, Live Online, Onsite, vFlex-ILT
Role	Administrator, Engineer
Level	Professional
Length	3 Days
SKU	EDU-VSWN65-OE
Credit Price	14
Related Certification	VMware Certified Professional 6 - Data Center Virtualization (VCP6-DCV)

NEW - VMware vSphere: Install, Configure, Manage [V6.5]

This five-day course features intensive hands-on training that focuses on installing, configuring, and managing VMware vSphere® 6.5, which includes VMware ESXi™ 6.5 and VMware vCenter Server® 6.5. This course prepares you to administer a vSphere infrastructure for an organization of any size. It is the foundation for most other VMware technologies in the software-defined data center.

Delivery Types	Classroom, Live Online, Onsite, vFlex-ILT
Role	Administrator, Engineer
Level	Professional
Length	5 Days
SKU	EDU-VSICM65-OE
Credit Price	23
Related Certification	VMware Certified Professional 6 - Data Center Virtualization (VCP6-DCV)

NEW - VMware vSphere: Optimize and Scale [V6.5]

This five-day course will teach you advanced skills for configuring and maintaining a highly available and scalable virtual infrastructure. Through a mix of lecture and hands-on labs, you will configure and optimize the vSphere features that build a foundation for a truly scalable infrastructure, and you will discuss when and where these features have the greatest effect. Anyone who is ready to take their understanding of vSphere to a deeper level and learn how to use advanced features and controls will greatly benefit from this course.

Delivery Types	Classroom, Live Online, Onsite, vFlex-ILT
Role	Administrator, Engineer
Level	Professional
Length	5 Days

Credit Price	25
Related Certification	VMware Certified Professional 6 - Data Center Virtualization (VCP6-DCV)

Maximize Value with Private VMware Training

Private, onsite training is the perfect option for organizations that need a cost-effective way to train a large number of employees all at once. The cost per student is lower than the cost of a public class, you can tailor the content to your specific needs, and class is scheduled around your schedule, not ours. We also work with you to meet your schedule and location requirements minimizing time away from work for your key staff.

VMware vSphere: Design Workshop [V5.5]

The goal of this course is to equip you with the knowledge, skills, and abilities to design a VMware vSphere® 5.5 virtual infrastructure that is available, scalable, manageable, and secure. You will design such an infrastructure while meeting your organization's business objectives and working within its constraints and requirements.

This course discusses the benefits and risks of available design alternatives and provides information to support making sound design decisions. This course also gives you an opportunity to practice your design skills by working with peers on a design project. The course is based on VMware ESXi™ and VMware vCenter Server™ 5.5.

Delivery Types	Classroom, Live Online, Onsite, vFlex-ILT
Role	Architect, Administrator, Engineer
Level	Expert, Advanced
Length	3 Days
SKU	EDU-VSDW55-OE

Management and Automation

VMware vRealize Automation: Install, Configure, Manage [V7.0]

During this five-day course, you will focus on installing, configuring, and managing VMware vRealize® Automation™. You will learn about the configuration and use of the vRealize Automation platform, including self-service provisioning and the creation of catalog services that include predefined virtual machines, software components, and on-demand VMware NSX® networks.

This course also covers interfacing vRealize Automation with other systems, using VMware vRealize® Orchestrator™ to leverage workflows, and creating approval cycles and managing machine lifecycles to conserve resources. In addition, you will better understand and know how to achieve the benefits of automation as a component of the software-defined data center.

VMware vRealize Operations Manager for Operators [V6]

VMware vRealize™ Operations Manager™ for Operators is a course for data center operators who are responsible for the day-to-day operation of a vSphere environment. This course teaches the operator how to use VMware vRealize Operations Manager as a forensic and predictive tool. The course is based on VMware ESXi™ 5.x, VMware vCenter Server™ 5.x, and vRealize Operations Manager 6.0.

Delivery Types	Classroom, Onsite, Live Online
Role	Operators
Level	Fundamentals, Professional
Length	2 Days
SKU	EDU-VROPSOP60-OE
Credit Price	9

VMware Site Recovery Manager: Install, Configure, Manage [V6.1]

This two-day, hands-on training course gives experienced VMware vSphere® administrators the knowledge to install, configure, and manage VMware Site Recovery Manager™ 6.1. This course also shows you how to write and test disaster recovery plans that use Site Recovery Manager.

Delivery Types	Classroom, Onsite, Live Online
Role	Administrator, Engineer
Level	Professional, Advanced
Length	2 Days
SKU	EDU-SRMICM61-OE
Credit Price	9

Also available as an [On Demand](#), self-paced course.

Desktop and Application Virtualization Management

VMware Horizon 7: Install, Configure, Manage [V7.0]

This five-day, hands-on course gives you the skills to deliver virtual desktops and applications through a single virtual desktop infrastructure (VDI) platform. This course builds your skills in installing, configuring, and managing VMware Horizon® 7 through a combination of lecture and hands-on labs. This course teaches you how to configure and deploy pools of virtual machines, how to manage access and security of the machines, and how to provide a customized desktop environment to end users.

Delivery Types	Classroom, Live Online, Onsite
Role	Architect, Administrator, Engineer
Level	Professional
Length	5 Days
SKU	EDU-HICM7-OE

NEW - VMware Horizon 7: Install, Configure, Manage plus App Volumes Fast Track [V7]

This intensive five-day, extended-hours course gives you the skills to deliver virtual desktops and applications through a single virtual desktop infrastructure platform. This course builds your skills in installing, configuring, and managing VMware Horizon® 7 through a combination of lecture and hands-on labs. You will learn how to configure and deploy pools of virtual machines and how to manage access and security of the machines. You will also gain skills in application management using VMware App Volumes™ and VMware User Environment Manager™. You will learn how to use App Volumes to deliver applications and data to desktops and users in seconds and at scale, managing application lifecycles from installation to update and replacement. You will also learn how to use User Environment Manager to provide personalization and dynamic policy configuration across virtual, physical, and cloud-based environments to simplify end-user profile management.

Delivery Types	Classroom, Live Online, Onsite
Role	Administrator, Engineer

VMware Horizon: Design and Deploy [V6]

This course presents a methodology for designing and deploying a VMware Horizon® solution. The design methodology includes recommendations for the type of information and data that must be gathered and analyzed to make sound design decisions for the client systems, the desktop options, the VMware vSphere® infrastructure, and the Horizon components. VMware best practices are presented for each phase of the design process. During this class, you apply your new knowledge by working with other participants to design and deploy a Horizon solution for a real-world project.
